

LEGAL UPDATE

Competition Law Bootcamp Seminar

16 April 2025 1 min read

After a restful holiday, get your company fit for competition law compliance in the New Year! Sharpen your skills and enhance your understanding of the changing landscape.

Topics to be covered are:

- Getting your deal through, despite intensive regulatory scrutiny of the (old and new) public interest provisions and the (new) national security regime.
- When competitors get together – what is allowed and what not, based on recent case law.
- What is the right price: avoid overcharging, undercharging and differential charging under the “new rules”.
- Emerging competition enforcement in the fourth industrial revolution: big data, algorithms and dominance abuse.
- How to dress up for the new market inquiry and impact assessment regimes.
