ESG in motion: Embracing the Rise of Electric Vehicles

16 April 2025 1 min read

SEMINAR INVITATION | CLICK [HERE](#) TO RSVP

As the world rapidly shifts towards sustainable practices and cleaner energy solutions in response to increasing concerns around climate change and the pressing need to reduce carbon emissions, we have seen the emergence of the automotive industry at the forefront of this transformative revolution.

Electric vehicles (EVs) have become a dynamic force driving change, redefining transportation and shaping the future of mobility. EVs have become an instrumental aspect of achieving a sustainable future. However, this transition is not without its challenges and legal complexities.

Join our panel of experts who will delve into the multifaceted aspects of this topic and shed light on the legal implications, environmental impact, regulatory frameworks, investment opportunities and future prospects of EVs. Embrace the future of mobility with us and be part of this electrifying transformation.

PANELISTS	
Mike McDonald Keynote Speaker Chief Technology Officer Thula Solutions	Natalie Scott Head of Sustainability
Kyra South Senior Associate	Janice Geel Associate
