

LEGAL UPDATE

Healthcare & Life Sciences Seminar

16 April 2025 1 min read

FORTHCOMING ATTRACTIONS: ALL THE STARS, ALL THE ACTION AND ALL THE SUSPENSE

Healthcare and Life Sciences Law is currently undergoing a revolution in South Africa with various laws dealing with the formal regulation of complementary medicines and medical devices coming into effect. However, more is in store in so far as we approach the culmination of the inquiry into the private healthcare sector in South Africa, the publication of a final White Paper on the National Health Insurance Scheme (proposed for South Africa), the coming into effect of both proposed amendments to the Medicines and Related Substances Act No. 101 of 1965, as amended and the Promotion of Personal Information Act No. 4 of 2013.

What impact will all of this have on your business? What are the proposed trends in the healthcare and life sciences arena for 2017/2018? We will also deal with and touch on recent case law and the lay of the legal landscape in the sector.

We look forward to seeing you for some lively discussion, debate and questions.
