

LEGAL UPDATE

Land Reform Seminar

16 April 2025 1 min read

Land reform has not ceased being a topical issue that has dominated the headlines post democracy in South Africa. Werksmans' offering in this area is at the cusp and centre of advising a variety of clients, which include but not limited to property developers, property owners, land owners, funders, wine farmers, land claimants, corporates and communities.

Recently, the Joint Constitutional Review Committee in Parliament has been tasked with amending section 25 of the Constitution; the Expropriation Bill has been tabled in order to detail, amongst other things, circumstances that would warrant expropriation without compensation; the Beneficiary Selection and Allocation Policy and be published in order to detail potential beneficiaries of land redistribution. This seminar will therefore distil critical issues that arise from current policy and legislative shifts, empowering our clients to navigate an otherwise complex terrain.

Please join us for an update as Directors, [Bulelwa Mabasa](#), [Anele Ngidi](#) and their team unpack these topical issues.
