Land Reform Seminar | October 2017

16 April 2025 1 min read

DISSECTING FACTS FROM FICTION

With only three months left before the all-important ANC Policy Conference, issues of policy stability and certainty remain the focal point to South Africa's position and trajectory as a destination for foreign direct investment. Key to issues of policy, is the Land Question as a potential driver to poverty alleviation.

At this Werksmans seminar, we will be dissecting what current policy on land entails; whether or not there has been any shifts to policy, with a particular focus on the Agricultural Land Holdings Bill, the Expropriation Act, some recent case law and a number of recent amendments introduced to key legislation.
