Healthcare & Life Sciences

Recent developments in the healthcare and life sciences sector

Thursday, 17 February 2022 | 8:30am

We unpack a recent judgement concerning a tender process and what that reveals about an approach to reviewing the outcome of a tender process. We also look at the status of the National Health Insurance Scheme and what is promised for 2022 as well as the implications of the current “roadmap” for complementary medicines, manufacturers, and importers of those medicines.

Please join [Neil Kirby](#), who is a Director and Head of [Healthcare & Life Sciences](#) practice at Werksmans, together with [Helen Michael](#), Director and [Boitumelo Moti](#), Associate, as we deliberate on these interesting developments.

Agenda

08:30 – 08:35 | Welcome and Introduction – [Neil Kirby](#), Director, and [Head of Healthcare Life Sciences](#), Werksmans Incorporated

08:35 – 09:05 | Remediless’ Review – a cautionary tale – An analysis of the recent High Court judgement in Ilex – [Helen Michael](#), Director, [Healthcare & Life Sciences](#) Practice Area

09:05 – 09:35 | Regulation by guideline – The status of the regulation of complementary medicines in the current legislative landscape – [Boitumelo Moti](#), Associate, [Healthcare & Life Sciences](#) Practice Area
